May, 1992
Volume 1, Number 4

REVIEW

211  PCR-based Approaches for Detection of Mutated ras Genes
     Alphonsus D.M. van Mansfeld and Johannes Bos

217  PCR, Direct Sequencing, and the Comparative Approach
     Thomas D. Kocher

222  Sequencing of PCR-amplified DNA
     Ian S. Bevan, Ralph Rapley, and Matthew R. Walker

RESEARCH

229  PCR-mediated Cloning of HpaII Tiny Fragments from Microdissected Human Chromosomes
     Bernhard Horsthemke, Uwe Classen, Sonja Hesse, and Hermann-Josef Lüdecke

234  Quantitative Determination of Rare mRNA Species by PCR and Solid-phase Minisequencing
     Elina Ikonen, Tuula Manninen, Leena Peltonen, and Ann-Christine Syvänäen

241  Preferential PCR Amplification of Alleles: Mechanisms and Solutions
     P. Sean Walsh, Henry A. Erlich, and Russell Higuchi

251  The Rat Genome Contains a p53 Pseudogene: Detection of a Processed Pseudogene Using PCR
     Janis E. Hulla

255  Simplified Template Preparation and Improved Direct Sequencing Using Taq Polymerase
     Anand K. Srivastava, Vittorio Montanaro, and Juha Kere

257  Quantitative RNA and DNA Gene Amplification Can Rapidly Monitor HIV Infection and Antiviral Activity in Cell Cultures
     Mark A. Winters, Mark Holodniy, David A. Katzenstein, and Thomas C. Merigan

263  Detection of Influenza A and B in Respiratory Secretions with the Polymerase Chain Reaction
     James C. Donofrio, J. Donald Coonrod, Jeffrey N. Davidson, and Robert F. Betts

269  Detection and Identification of Multiple Mycobacterial Pathogens by DNA Amplification in a Single Tube
     Steve Wilton and Debby Cousins

TECHNICAL TIPS

274  The Random Amplification of Polymorphic DNA for Fingerprinting Plants
     Mathildah Munthali, Brian V. Ford-Lloyd, and H. John Newbury

277  Introduction of Multiple Restriction Enzyme Sites by In Vitro Mutagenesis Using the Polymerase Chain Reaction
     Basavaraju Shankarappa, Raghavan Balachandran, Phalguni Gupta, and Garth D. Erlich

279  Single-step Elimination of Contaminating DNA Prior to Reverse Transcription-PCR
     Donald D. Dilworth and John R. McCarrey
