Most Cited Journal in Its Field: Now Semimonthly

**Genes & Development** reports major advances of general interest and biological significance in molecular biology, molecular genetics, and related areas. The journal appears semimonthly and includes research papers and review articles.

*Volume 8, 1994, containing 24 semimonthly issues*
- Individual Price (U.S.) $115.00
- Individual Price (R.O.W.* airlift delivery) $205.00
- Student Price (U.S.) $85.00**
- Student Price (R.O.W. airlift delivery) $165.00**
- Institutional Price (U.S.) $450
- Institutional Price (R.O.W. airlift delivery) $540

*R.O.W. = Rest of world
**Those who qualify must provide student I.D.

ISSN 0890-9369

Published Bimonthly

**PCR Methods and Applications** is devoted exclusively to amplification methods and their use. Its aim is to provide investigators in every discipline with a central source of reliable, independent, and up-to-date information about the principles and practice of amplification methods as well as their application.

*Volume 4, 1994/95, containing 6 bimonthly issues (beginning August 1994)*
- Individual Price (U.S.) $89.00
- Individual Price (R.O.W. surface delivery) $105.00
- Individual Price (R.O.W. airlift delivery) $137.00
- Student Price (U.S.) $65.00**
- Student Price (R.O.W. surface delivery) $85.00**
- Institutional Price (U.S.) $276
- Institutional Price (R.O.W. surface delivery) $292
- Institutional Price (R.O.W. airlift delivery) $324

**Those who qualify must provide student I.D.
ISSN 1054-9803

A Co-publication

**Cancer Surveys: Advances and Prospects in Clinical, Epidemiological and Laboratory Oncology** is published for the Imperial Cancer Research Fund by Cold Spring Harbor Laboratory Press. It provides a comprehensive survey of the present state of, and future developments in, well-defined areas in oncology. Each issue deals with a specific topic and has guest editors with an expert knowledge of the subject.

**Topics to be covered in 1994 are:**
- Volume 19/20: Trends in Cancer Incidence and Mortality (double issue)
- Volume 21: Palliative Medicine

These issues can be ordered directly from Cold Spring Harbor Laboratory Press by subscription ($213, plus $25 airmail delivery) or individually ($72, plus $4.50 surface delivery or $12 airmail delivery).

ISSN 1050-849X

**Learning & Memory** will publish experimental studies in humans and animals on cognition, behavior, development, neuropsychology, neurophysiology, biochemistry, cell biology and genetics. This new journal will contain peer-reviewed research papers, commissioned reviews and commentaries, theories and models, and short communications and letters.

*Volume 1, 1994, contains 4 issues (beginning June, 1994)*
- Individual Price (U.S.) $57
- Individual Price (R.O.W. surface delivery) $67
- Individual Price (R.O.W. airlift delivery) $87
- Institutional Price (U.S.) $127
- Institutional Price (R.O.W. surface delivery) $137
- Institutional Price (R.O.W. airlift delivery) $157

Reader Service No. 417
Introducing the first agarose that can challenge polyacrylamide.

Until now, when you wanted the finest resolution of PCR* products and small DNA fragments (less than 800 bp), you probably made a polyacrylamide gel. Preparing that gel, however, was tedious and time-consuming.

But now there's something better. It's a new kind of agarose that not only offers speed and convenience, but also has twice the resolution capabilities of any other agarose. It's new MetaPhor™ agarose from FMC.

In fact, as you can see from the above results, MetaPhor agarose gives you resolution so fine (down to a 4 bp difference) that it rivals polyacrylamide. And we think that makes it a clear winner.

Just dissolve MetaPhor agarose in 1X TBE buffer, cast and chill the gel in your submarine chamber, load your samples, and go. It's as easy as that.

So take the MetaPhor challenge, and see how our new MetaPhor agarose performs. When you do, you'll understand why scientists who want the best go straight to the source. To learn more, or to place your order, call us today at 800-341-1574.

Go straight to the source.

For Research Use Only. Not for use in diagnostic procedures.

*The PCR process is covered by U.S. patents owned by Hoffmann-LaRoche, Inc.
