MASS Oligos

FAST, GUARANTEED AND AFFORDABLE.

Your schedule depends on receiving 1000's of oligos daily. And your budget demands affordability.

GENSET has the answer. Our new Mass Oligos custom DNA synthesis service uses innovative oligo Ultra-Fast Parallel Synthesis and automated post-synthesis processes to produce large quantities of high quality oligos on a dependable, daily basis.

So now you can get all the oligos you need. When you need them. In the format and concentrations you need. At prices you can easily afford. And all fully guaranteed.

But don't just take our word for it – many of the leading genome projects in the U.S., Europe and Japan are already using GENSET Mass Oligos.

So call us today for more information. And discover how we can be the best single source in all your oligos needs day in and day out.
