Supplementary Figure S1
Supplementary Figure S2
Supplementary Figure S3
Supplementary Figure S5

The figure consists of multiple panels (a) through (e), each showing different types of data visualizations. Panel (a) appears to be a bar chart with color-coded bars, possibly representing different categories or conditions. Panel (b) seems to be a line chart, with data points scattered along the x-axis and possibly connected with lines to indicate trends. Panel (c) shows a histogram or density plot, likely depicting a distribution of values. Panel (d) includes two horizontal bars, possibly indicating ratios or proportions. Panel (e) presents a stacked bar chart, with segments indicating different components of a total value.
