COLLECTA

DriverMap™ Targeted RNA-Seq Expression Profiling Solution

Profile all 19,000 human protein-coding genes in a single tube simply and accurately.

- Globin depletion or mRNA enrichment steps not required
- Human-specific profiling without interference from non-human background cells
- Sensitive differential gene expression analysis from as little as 10 pg total RNA
- Ideal for biomarker discovery applications

Learn how we can power your research at collecta.com

Who we are

Collecta Inc., a trusted provider of genomic products and services, has successfully collaborated with the world's leading pharma, biotech, government, and academic institutions to drive drug target and biomarker discovery since 2006. Our recognized expertise in viral vector production, functional screening, cell engineering and multiplex qRT-PCR has given rise to a portfolio of offerings useful for loss-of-function and gain-of-function phenotypic screening, cell barcoding, cell engineering, targeted RNA-Seq expression, adaptive immune receptor profiling, and much more.

We can power your discovery.

ANNUAL MEETING 2025 CHICAGO

APRIL 25-30, 2025

UNIFYING
CANCER
SCIENCE AND
MEDICINE:
A CONTINUUM OF
INNOVATION
FOR **IMPACT**

The AACR Annual Meeting is the critical driver of progress against cancer, the place where scientists, clinicians, other health care professionals, survivors, patients, and advocates gather to share and discuss the latest breakthroughs.

Functionality,
reimagined.

The New Vortex Mixer

- Mix and vortex in one compact device
- Precisely set speed and duration controls
- Glove compatible touchscreen
- Quickly vortex tubes with just one touch

The Vortex Mixer is ideally suited for assay protocols that require gentle mixing, all the way up to resuspensions that require vigorous vortexing. Find out more at usascientific.com/vortex_mixer.
