A horizontal banner advertisement with a teal background. On the left, the text reads "CRISPR and RNAi Genetic Screening. Your new superpower." in white. In the center, there is a white rectangular button with the text "LEARN MORE". On the right, there is a photograph of a woman wearing a red and white superhero costume with a red mask. To the right of the photo is the Cellecta logo, which consists of a green molecular structure and the word "CELLECTA" in white capital letters.

## Erratum

---

**Genome Research 17:** 1755–1762 (2007)

**Hitchhiking effects of recurrent beneficial amino acid substitutions in the *Drosophila melanogaster* genome**

Peter Andolfatto

Corrected values of  $\pi_S$  and  $K_a$  were plotted in Figure 1B, not residuals, as reported in the text. Similarly, corrected values of  $K_a$  were plotted in Figure 2. "Corrected values" should also be substituted for "residuals" throughout the text in references to Figures 1B and 2. The author apologizes for any inconvenience these errors may have caused other investigators in the field.
