A horizontal banner advertisement with a teal background. On the left, the text "CRISPR and RNAi Genetic Screening. Your new superpower." is written in white. In the center, there is a white rectangular button with the text "LEARN MORE". On the right, there is a photograph of a woman wearing a red and white superhero costume with a red mask. To her right is the Cellecta logo, which consists of a green molecular structure and the word "CELLECTA" in white capital letters.

Genome Research 21: 276–285 (2011)

Prediction and characterization of noncoding RNAs in *C. elegans* by integrating conservation, secondary structure, and high-throughput sequencing and array data

Zhi John Lu, Kevin Y. Yip, Guilin Wang, Chong Shou, LaDeana W. Hillier, Ekta Khurana, Ashish Agarwal, Raymond Auerbach, Joel Rozowsky, Chao Cheng, Masaomi Kato, David M. Miller, Frank Slack, Michael Snyder, Robert H. Waterston, Valerie Reinke, and Mark B. Gerstein

In Figure 3, the color labels in the key were incorrectly reversed. They should indicate that blue ncRNA scores represent high confidence novel ncRNA candidates, and magenta ncRNA scores represent medium confidence novel ncRNA candidates. Please note that the figure legend and text are correct.

The authors apologize for any confusion this may have caused.
