The authors would like to correct the omission of DNA Data Bank of Japan accession number DRA001875 from the initial publication of this article. The data under this accession number are associated with the sequencing of RNA isolated from control samples (i.e., peripheral blood samples of healthy people and people with other infectious diseases). Please note the corrected Data access section in the text is as follows:

“The sequencing data from this study have been submitted to the DNA Data Bank of Japan (DDBJ; <http://www.ddbj.nig.ac.jp/>) under accession numbers DRA000949 and DRA001875.”

The authors apologize for any inconvenience.
