## Corrigenda

---

**Genome Research 32:** 1285–1297 (2022)

**Corrigendum: Cell cycle arrest explains the observed bulk 3D genomic alterations in response to long-term heat shock in K562 cells**

Bingxiang Xu, Xiaomeng Gao, Xiaoli Li, Yan Jia, Feifei Li, and Zhihua Zhang

The authors would like to correct an error in Figure 5A, in which the representative image of cells under the short-term heat shock (SHS) condition was inadvertently duplicated for normal heat shock (NHS). As the panels in Figure 5A only serve as representative images, this error has no impact on any of the analyses or conclusions reported in this article. Figure 5 has been updated in the revised article online.

The authors apologize for any confusion this may have caused.

doi: 10.1101/gr.277270.122

**Genome Research 32:** 1231–1241 (2022)

**Corrigendum: Diversifying the genomic data science research community**

The Genomic Data Science Community Network

The authors would like to provide alternative (alt) text descriptions of the main figures for the visually or print impaired. A pointer to the alt text has been added at the end of the Acknowledgments section in the revised article online and now reads as follows:

“Alternative text descriptions of the main figures for the visually or print impaired are available as Additional Supplemental Material.”
