Erratum: Expanded methylome and quantitative trait loci detection by long-read profiling of personal DNA

Cristian Groza, Bing Ge, Warren A. Cheung, Tomi Pastinen, and Guillaume Bourque

Owing to production errors, the panel label of Figure 1E was missing and the hyphen in SV-CpG was incorrectly rendered as a square; and several of the line graph curves were incomplete in Figure 5D of this article. The corrected figures have been updated in both the PDF and full-text HTML files online.

The journal regrets these errors and apologizes to the authors and readers for any confusion they may have caused.
