Corrigendum: TP53-inducible putative long noncoding RNAs encode functional polypeptides that suppress cell proliferation

Wenli Xu, Chang Liu, Bing Deng, Penghui Lin, Zhenghua Sun, Anrui Liu, Jiajia Xuan, Yuying Li, Keren Zhou, Xiaoqin Zhang, Qiaojuan Huang, Hui Zhou, Qingyu He, Bin Li, Lianghu Qu, and Jianhua Yang

The original version of the Supplemental Material associated with this article contained an error in Supplemental Figure S10F. Specifically, during figure assembly, images in the left panel of Supplemental Figure S10F from the sh-TP53LC04-2 group were inadvertently used in place of the sh-TP53LC04-1 group images.

The corrected Supplemental Figure S10F has been updated in the Revised Supplemental Material online.

The authors apologize for any confusion this may have caused.
