

Supplementary figure 1. Variable length (9/10/19T) homopolymeric tract found in the IGS1 region of *S. cerevisiae* DBVPG 1853 (nucleotide positions: 7738 to 7766 [based on S288c numbering])

A. 9T type tract (51 reads)

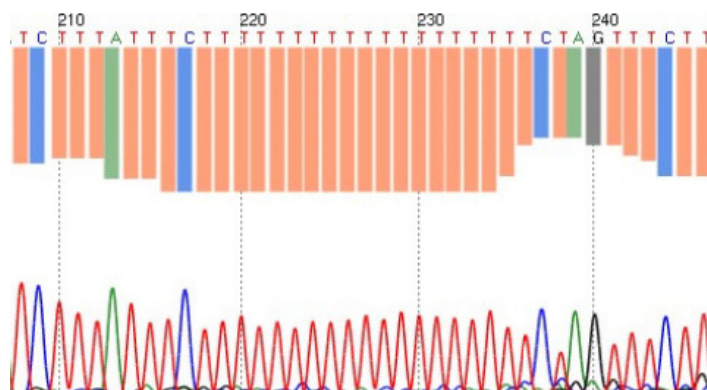

(TI# 1253308756 [trace name 'ScDB53-11j11.q1k']: positions 600 to 628)

B. 10T type tract (48 reads)

(TI# 1253309376 [trace name 'ScDB53-12l06.p1k']: positions 445 to 474)

C. 19T type tract (1 read)

(TI#1253311308 [trace name 'ScDB53-16m13.q1k']: positions 208 to 246)
