

Genome-wide discovery of human heart enhancers

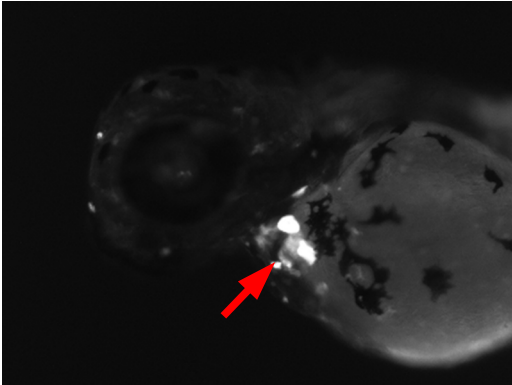

Leelavati Narlikar, Noboru J. Sakabe, Alexander A. Blanski, Fabio E. Arimura, John M. Westlund, Marcelo A. Nobrega, Ivan Ovcharenko

Figure S2. Photographs of zebrafish embryos displaying expression of GFP in the heart driven by predicted enhancers (from Table 1 in the paper). Arrows point to the heart. Coordinates are from hg18.
