

Supplementary data legends

Supplementary Data 1. Coordinates of CHD7- and P300-bound enhancers in mESC. Coordinates represent a 1 kb window centered on the CHD7 or p300 peak midpoint.

Supplementary Data 2. Coordinates of H3K4me1/H3K27ac-defined enhancers in mESCs, mNPCs, adipocytes, and mBMDMs. Coordinates represent a 1 kb window centered on the H3K4me1/H3K27ac peak midpoint.

Supplementary Data 3. Complete list of GREAT results for CHD7- and P300-centered enhancer classes in mESCs.

Supplementary Data 4. Complete list of GREAT results for enhancer classes in adipocytes and mBMDMs.
