

**A****B**

### Supplemental Fig. S2. Phase analysis.

(A) Scatter plots showing phases for the genes in the control dataset in control (x-axis) and CF (y-axis) liver. The red line is the  $X = Y$  line and the blue line is the best fit. The orange dots are circadian-related genes, selected according to gene ontology analysis. (B) As in A but in control (x-axis) and Arntl KO (y-axis) liver.
