

Figure S2. *HOTAIR*'s expression in WT U251 cells and *HOTAIR* RE KO cells. (A) RT-qPCR analysis of *HOTAIR* in U251 cells. Low level of *HOTAIR* in U251 cells compared with 22RV1 prostate cancer cells. Data represents means \pm S.E.M. of three independent experiments. (B) RT-qPCR analysis of *HOTAIR* in wild-type U251 cells and *HOTAIR* RE KO cells. Data represents means \pm S.E.M. of three independent experiments.
