

Supplemental Figure S10. Copy number changes at week 6. (A) Hamster genome, growth at week 6 compared to week 0; 0 nM paclitaxel. (B) Human genome, growth at week 6 compared to week 0; 0 nM paclitaxel. (C) Hamster genome, 75 nM paclitaxel compared to 0 nM paclitaxel; week 6. (D) Human genome, 75 nM paclitaxel compared to 0 nM paclitaxel; week 6. Changes on \log_2 scale averaged across the six RH pools.
