

**Supplemental Figure S31.** Close up views of paclitaxel loci. (A) Chromosome 3. (B) Chromosome 7. (C) Chromosome 19. (D) Sequence read changes on  $\log_2$  scale for six paclitaxel loci. Colored lines, best fit. Grey bands, 95% confidence intervals. (E) Locus for *PDE4DIP* on Chromosome 1. (F) Locus for *SDK1* on Chromosome 7. Horizontal red and black lines, permutation significance thresholds.
