

Supplemental Figure S10

A. Initiator Dinucleotide for all L1T_F TSSs

B. Initiator Dinucleotide for all L1T_F TSSs

Supplemental Figure S10. Putative initiator dinucleotides inferred from L1 5' RACE products

(A) Initiator dinucleotides for all L1 T_F TSSs, at day 0, day 3, and day 21 of differentiation.

(B) Initiator dinucleotides for the subset of TSSs originating upstream of the L1 T_F promoter region, at day 0, day 3, and day 21 of differentiation.
